Top dresser

TERRA TOP[®] 400

TERRA TOP® 400

The **TERRA TOP® 400** is a robust tractor mounted (standard) or trailed (option) Top Dresser which is ideally suited for fine turf applications. A specially designed feeder roller delivers top dressing materials to a brush which ensures even distribution and direct placement of dressings in the surface.

The system has been designed to cope with wet materials, a heavy duty agitator combined with a steep sided hopper shape ensures that the hopper empties efficiently. A mesh fitted to the top of the hopper prevents large foreign particles entering the mechanism and doubles as a safety guard.

Drive for the feeder roller, brush and agitator is provided via the tractor P.T.O. system. A high wear resistance material is used in the construction of the feeding mechanism to prolong service life. All drive components are sealed to keep sand out.

The standard **TERRA TOP® 400** mounts on to the tractors 3 point linkage and is close coupled for efficient weight transfer and greater stability. A simple notched mechanical gate design meters the application rate. In optional trailed form hopper extensions can be fitted to increase capacity to 800 litres.

The trailed unit comprises an adjustable draw bar linked to four low ground pressure turf tyres on swinging axles.

All metal components are produced from galvanised steel plate, powder coated and finished in stove enamel.

- ① **Trailed version** (option).
- ② **Swinging axle** with 4 low ground pressure tyres.
- ③ **Top dressing.** Easily adjusted application rate via locking setting lever.
- ④ **TERRA TOP® 400** close coupled 3 pt linkage design.

TECHNICAL DATA	
Working width:	53"
Transport width:	63"
Drive:	Pto-shaft 540 rpm
Hopper capacity:	appr. 14 cu. feet
Hopper capacity with hopper extension:	appr. 28 cu. feet
Loading height 3-pt. mounted:	appr. 3"
Loading with hopper extension:	appr. 4"
Loading height with trailer:	appr. 4"
Loading with hopper extension:	appr. 5"
Feeder drum:	Ø 9"
Tyres:	18 x 8.50 - 8 4 PR
Weight, empty without trailer:	appr. 660 lbs
